

What is the Institute of Technology (IoT)?

- ▶ Consortium of colleges across Yorkshire & the Humber
- ▶ One of twelve Institutes of Technology across the country
- ▶ Designed to increase higher level technical skills for employers
- ▶ Investment of circa £10 million of capital funding into the region, for partners to invest in industry-standard equipment, to provide higher level technical training

Our Plans

- ▶ £600,000 investment from the Department of Education
- ▶ Plans are underway to purchase and install a state-of-the-art automated manufacturing facility and associated equipment within Engineering department
- ▶ Launch of the latest Industry 4.0 automation technology
- ▶ The IoT at Selby College will enhance local employment opportunities and ensure highly qualified employees for the region's employers
- ▶ Already working alongside a number of major employers, to provide training and Apprenticeship schemes
- ▶ Will enable training for the next generation of manufacturing engineers

Our IoT Approved Courses

Apprenticeships

- Automation and Controls Engineering Technician
- Engineering Manufacturing Technician
- Maintenance and Operations Engineering Technician
- Engineering Technician
- Engineering Design and Draughtsperson
- Food and Drink Engineering Maintenance Engineer
- Metal Fabricator

Higher Education (Degree-Level)

- Higher National Certificates & Diplomas, accredited by Pearson:
 - ▶ General Engineering
 - ▶ Computer Systems Development
- BSc (Hons) Computing (Top-Up), awarded by University of Hull

“ We are delighted to have the opportunity to be part of this prestigious Institute of Technology, which will put the College at the forefront of the next generation of automated engineering.

We are excited to work alongside our industry partners, to meet their future needs and requirements – in turn ensuring that our students have the skills and knowledge required to fulfil their potential. ”

Ian Muir Assistant Director for IoT & Client Development at Selby College
