**I N S T I T U T E O F**  
**T E C H N O L O G Y**

Maintaining the safety, integrity and effective operation of plant and equipment in industries that are part of the national infrastructure engineering sector, such as electricity generating, oil and gas refining and pharmaceuticals.

This apprenticeship has two pathways: Electrical Engineering or Mechanical Engineering

Job Occupations: Electrical Technicians, Mechanical Technicians, Process Control Technicians

Planned Duration: 45 months (Practical period: 42 months, End Point Assessment period: 3 months)

## Why study this course?

Apprenticeships give you the opportunity to work for a real employer, earn a real salary and gain a real qualification whilst gaining valuable workplace skills and experience. If you are aged 16 or above, are driven to succeed in a particular industry and are willing to commit yourself to training and study, then an Apprenticeship could be the right career move for you.

## What will I study?

The apprentice will learn, work, earn and achieve a qualification all at the same time.

To achieve the apprenticeship they will complete the following:

- An industry designed and recognised apprenticeship
- End Point Assessment (Knowledge Test, Practical Observation and Technical Interview)

The apprentice will work towards the following Functional Skills:

- Mathematics up to Level 2
- English up to Level 2

Learners who have already achieved GCSEs (A-C or equivalent) in Maths and English may be exempt from Functional Skills.

The apprenticeship is mainly work based, with one day per week in college. The apprentice may also be required to attend College for functional skills if needed.

## What can I do after this course?

Upon completion of the Apprenticeship, the Apprentice may progress into employment within the sector or complete further studies related to their area of work.

## Entry requirements

There are no formal entry requirements for an apprenticeship (unless an employer stipulates any themselves) however all potential apprentices will undertake a basic Maths and English assessment prior to enrolment.

## Assessment

Knowledge Test, Practical Observation and Technical Interview
